

How to Use Kanopy

Creating Your Account:

1. Visit www.wellesleyfreelibrary.org and the “E-Library” tab to go to the library’s Kanopy page.
2. Click on “Sign Up” in the top right hand corner.
3. Add your name, email, and create a password.
4. Kanopy will send you a confirmation email. Login to your email and click on the link in the email.
5. That link will take you to another Kanopy page where you can search for “Wellesley Free Library” and input your library card number.
6. That’s it!

How to Use the Kanopy App:

1. Download the free app from your device’s mobile app store.
2. Login with your Kanopy credentials.
3. Browse the homepage for movies, or tap on the menu icon in the top left-hand corner to browse by subject, view your account, and change your settings or profile.
4. Turn off cellular data use, add closed captioning, and get help with the app in settings.
5. Search for films in the top right hand corner.

How Kanopy Works:

1. You can check out and stream **6** movies per calendar month.
2. The checkout period is 72 hours; once you check out a movie, you can watch it as many times as you like within that three-day period.
3. Once the 72 hours pass, the movie will simply disappear from your account with no overdue fees.

Through Kanopy, you can also:

1. Curate your own playlists.
2. Comment on films and engage in lively community discussion about films.
3. Keep track of your viewing history.
4. As you keep watching, Kanopy will learn your viewing preferences and recommend films you might like.
5. You can share movies on social media to recommend to friends and family.
6. You can even use Kanopy with Apple TV, Roku, and other Smart devices.
